

T8 LED Tube

This product is suitable for factories, offices, banks, hospitals, supermarkets, schools and other place of indoor that need high-brightness and energy saving.

Commercial Lighting

-  Recessed
-  AR111
-  Bulb
-  Tube
-  MR16
-  Track

Feature

- Type : G13
- Beam Angle : 120°
- Color : warm white) / neutral white / cool white
- Life : 25,000 hrs

Light Source

- Emitter : SMD Type
- Luminous Flux : 850lm (10W) & 1650lm (20W)
- CCT : 3000K / 4000K / 5700K / 6500K
- CRI : >80

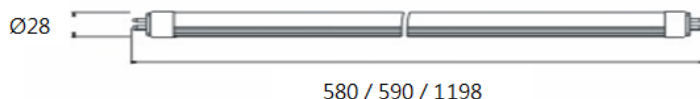

Electrical & Safety

- Power : 2 FT (10W) / 4 FT (20W)
- * Lamps need with electrical ballast
- Safety Certification :

Physical

- Dimension : Ø28x580mm / Ø28x590mm (2FT)
Ø28x1198mm (4FT)

Patent

- China Invention Patent (No.CN201410778275)
- Taiwan Utility Patent (No. M 477537)
- U.S Invention Patent (In examination, Application No. 14195865)
- Korea Utility Patent (In examination, Application No. 2020140002296)

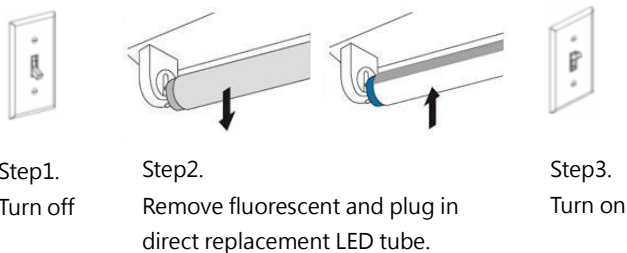

Advantage

- Directly replace T8 fluorescent tube (ballast type of lamps) and not need to replace the lamp.
- Constant-current power design and enhance reliability.
- Power module without chemical capacitor design.

Match Type

- Self-Ballast Electronic Ballast
- Out-Ballast Electronic Ballast

Installation Guide

Safety Warning

- An qualified technician is needed as implemented the installation process.
- Turn-off the city power and make sure all of the facilities are safety before installation or maintenance.
- Don' t drop or impact the luminaries during installation process.
- Confirm the installation process has completed again.
